The Beta Omicron Chapter has made the 2017-18 school year one of the most memorable in our chapter's history. Our brothers Justin Dyer, Trine '14, Logan Bowling, Trine '17 and Sandeep Kurian, Trine '17, have been working closely with one of the sororities on campus to start the "To Better the Man" scholarship. The scholarship is for incoming Trine University freshmen who have excelled in academics throughout their high school careers and it will pay for a portion of a student's book fees. We have tried and failed to get this established in the past, but it is finally being accomplished.

Philanthropy is one thing that, as a brotherhood, we always try to do a lot of. Our chapter is heavily involved in the community surrounding Trine University. We participate in numerous community service events such as our highway cleanup that we hold once every semester. This gives us a chance to go out in letters and show our support of a cleaner earth and a better world. Our most successful philanthropy event this year was going out on our campus and having people write personal letters to The Veterans of Madison County Association. We also held our annual "Movember" basketball tournament and had a great campus-wide turnout in which we raised over \$500 that went to the Movember Foundation.

Something that our chapter has not done in many years was brought back this halloween. For many years the Beta Omicrons made the house into a haunted house for the neighborhood to come in and get a good scare on Halloween night. This had not been done since we built our new house in 2015 so this year we decided to bring it back. The haunted house was designed and set up by our brothers Tyler Faircloth, Trine '16, Steve Gieriek, Trine '16, Justin Dyer, Trine '14, Sandeep Kurian, Trine '17 and Jared Thomas, Trine '17. The haunted house was free to the public and fellow classmates, but all were encouraged to donate to Alex's Lemonade Stand. It was a huge success thanks to all of the brotherhood's hard work and we look forward to making improvements and continuing this tradition.

As a whole, this year may have been one of the better years to be an Alpha Sig at Beta Omicron. We have added seven new brothers to our brotherhood and the future is looking bright for us. We started out this year on a bad note, but since then, brothers have been taking more initiative and being more responsible in their day to day activities on and off campus. The "Ole Gal" is in the best condition that I have ever seen it. We have deep-cleaned the house for the first time since it was built and our alumni association is very pleased. We hope to continue taking steps in the right direction so that we can be the best Alpha Sigs that we can possibly be.

In Phi,

Justin Wiza, Trine '17

BIG MAN ON CAMPUS

Every year, the women of Theta Phi Alpha at Trine hold a massive philanthropy event called “Big Man on Campus.” In this event, a man from each fraternity competes to raise money for breast cancer research and they participate in a series of group and solo events to see who is the “Big Man on Campus.” Brother Tylor Willms, Trine '15, was our chosen participant for this event and he came out on top with the most money raised, most events won and was named Trine University’s Big Man on Campus!

This event took place over a two week period. Tylor and the brothers who participated in events with him dominated in almost every event including War Night, where five brothers along with Tylor competed in tug-of-war, three legged race, obstacle course, and dizzy bat. Along with the money that Tylor raised, over \$14,000 was raised by all of the men who competed in BMOC. This was the most money raised in the history of the event and we are proud to have a brother responsible for making that much of an impact on finding a cure for this terrible disease.

DONORS

JOSEPH NICHOLS, trine '11

BRANDON SNELL, trine '12

Thank you for giving to the Beta Omicron Chapter Endowment in 2017-18. Your generosity has helped the Beta Omicron Chapter thrive and continue to Better the Man now and for years to come.
